Immunizations Requirements For Students Who Are 11 Years Old

The Arizona laws for school immunizations changed August of 2018. Now, all students 11 years of age and older are required to show proof of receiving a Meningitis vaccine and a Tdap (tetanus, diphtheria, pertussis) booster.

If your student turns 11 over the summer please make sure they get their shots and please bring documentation of the shots to the school before school starts on August 6th 2019. This will prevent your student from possibly being suspended from school.

For students who will turn 11 during the school year, the health office will send reminders as their 11th birthdays get near. You may make an appointment with your child’s physician or use the free clinic below. Please call the Health Office with any questions at 480-472-8543 or 480-472-8566

Free Immunization Clinic

Mesa Immunization Clinic
635 E. Broadway, Mesa, AZ 95204
