Marine Mammal Fable

1. A fable is a short story with a moral or point to the story.
2. The short story is generally 2 to 3 paragraphs in length.
3. The key concept or vocabulary assigned in class must be used in the fable.
4. The key concept or vocabulary terms must be HIGHLIGHTED in the fable.
5. The moral or point to the story is added AFTER the last paragraph.
6. After the moral or point to the story is stated, there must be an illustration showing the key concept.
7. After the illustration there must be an explanation of how the story, moral/point and illustration shows the assigned science concept or principle.
