

January 4, 2008

Dear Parents,

The Food and Nutrition Department is pleased to announce the availability of a new service that will provide you with an easy and convenient way to send breakfast and lunch money for your children attending Entz Elementary School.

Parents, you can now say goodbye to sending cash and checks to the school cafeteria by creating a secure online account with myLunchMoney.com. MyLunchMoney.com provides you with a direct link to your student's school using internet access. You should have received a flyer and instructional letter providing the information necessary to put money on your child's meal account with the click of a button.

TIPS TO KNOW

- Users will be charged a flat \$1.95 for each transaction (transaction based on per school site basis.)
- A maximum \$100.00 prepayment is allowed at any one time.
- Payments are updated to the system at 4:00 am and 9:00 am daily.
- The student's birthday is required to successfully make a payment to their account.
- It is important to remember that your student's account is specific to his/her school. In the event you relocate to another Mesa Public School, you will need to set up a new myLunchMoney.com account for that school. However, the money you have on account in the cafeteria at the first school will transfer to your child's meal account at their new school.
- When enrolling, you can select the automatic pre-payment option, if desired. It is not required.

It is our hope that you find this to be a beneficial tool and that it will provide you with the peace of mind knowing that your child can always have money available for meals.

Thank you for your support of the meal program.

Sincerely,

Loretta Zullo, MA,
RD, SNS Director of
Food and Nutrition
