

Preschool Olympics - March 5, 2015

On March 5th, the preschoolers at the Jordan Center for Early Education participated in "Preschool Olympics". This adaptation of field day provided an opportunity for the preschoolers to participate in activities that were age appropriate, supported their physical development, and were tons of fun! The children participated in trike races, kicking and throwing games, water and bubble play, parachutes, and a preschool sized obstacle course!

The teachers and staff did an outstanding job planning and setting up the day. We would like to thank the many volunteers that joined us for this fun filled day. A special thank you to the parent organization F.I.S.H. (Family Involvement Starts Here) who helped organize the parent volunteers who manned activity stations.
