

Linking to Internal Pages

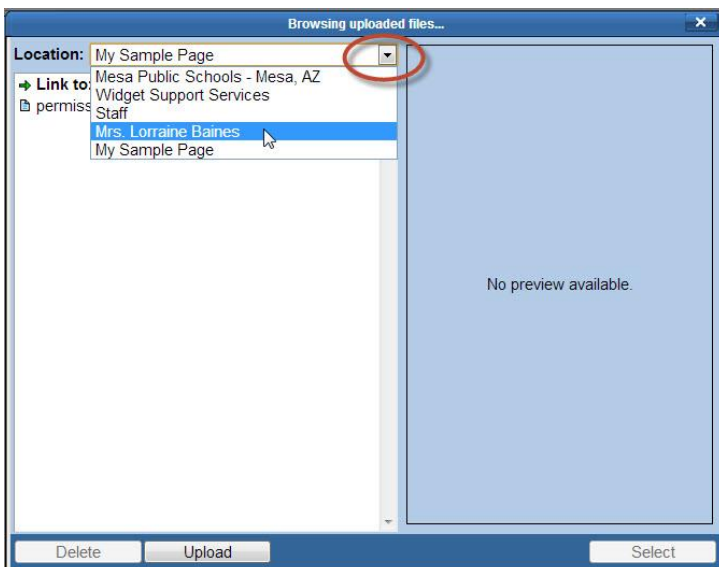

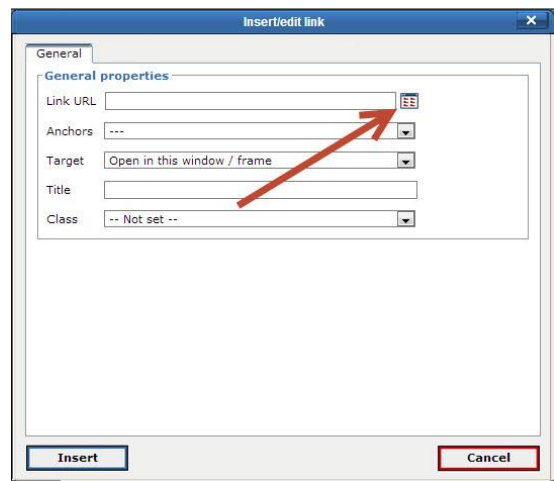

While in Edit mode, highlight the text that will become the link.

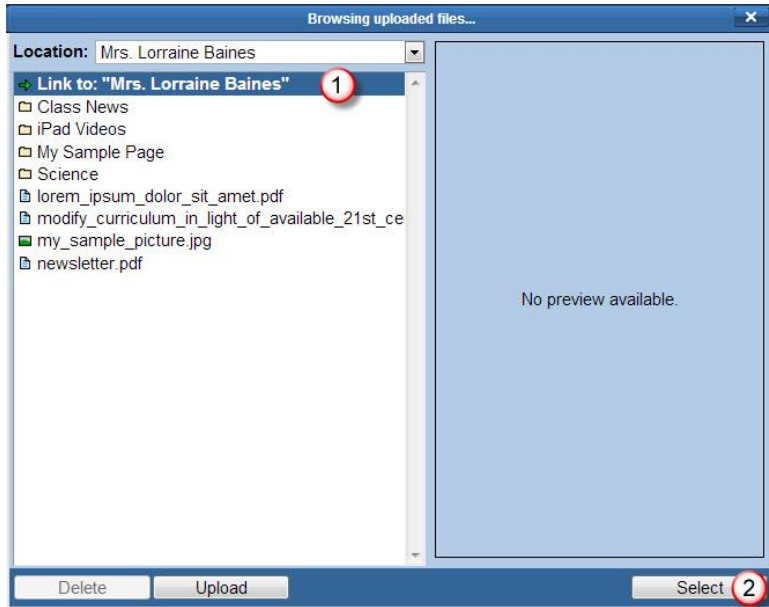

In the Editor Window toolbar, select the Insert/edit link icon.

From within the new window select the **Browse** icon.

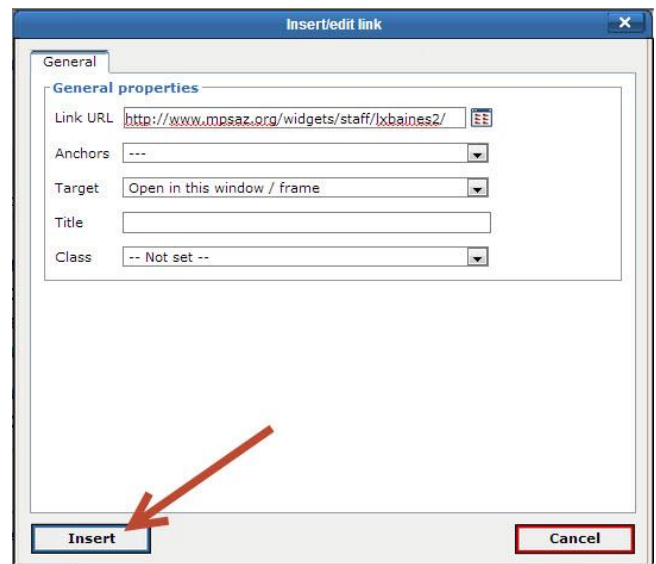

Click on the drop-down menu to the right of **“Location.”**

Navigate to the page that you wish to link to. (1) When the page is displayed in the list on the left side, click on the page title so that it is highlighted and then (2) click on “Select.”

Select “Insert.”

Select “Publish” and then test your link.
