

# Adding a Calendar to a Smart Page in Architeck

Open Chrome, or your web browser, and navigate to your Smart Page in Architeck.

Select **“Edit Page”** from the Architeck toolbar at the top of the page.

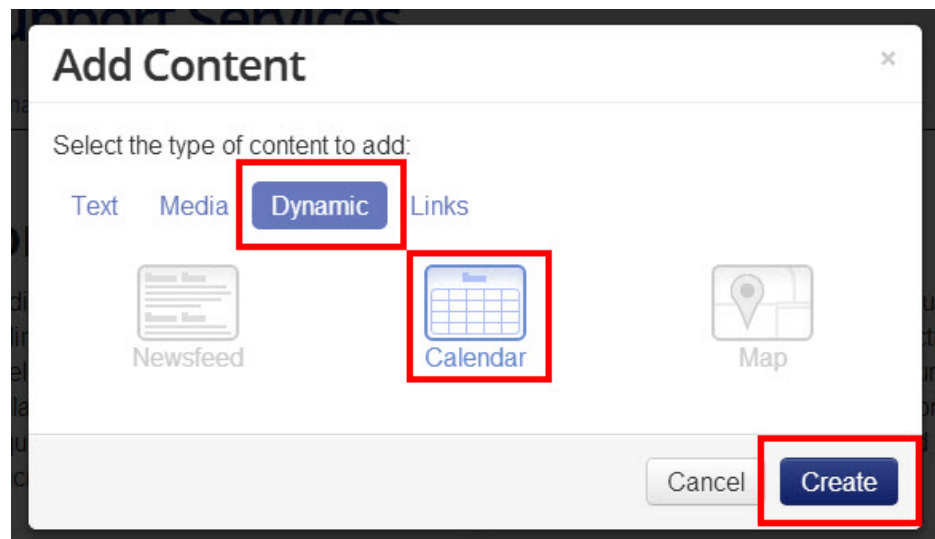

When the screen refreshes, you will see lightly shaded blocks with the words **“Add content...”** on your page. To begin editing, simply click in any

one of the boxes. When you do, a new dialogue box will open up asking you to select the kind of content you wish to add.

In the **“Add Content”** dialogue box, select:

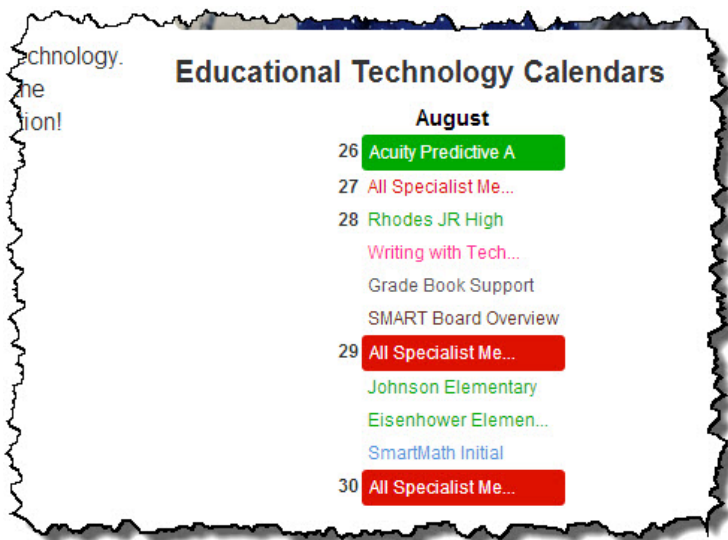

- **Dynamic**
- **Calendar**
- **Create**

You have the option to add a title for the calendar.

Type in (or copy and paste) the URL for the calendar you wish to add.

Select the “**View**” and “**Range**” options, and then select “**Update**”.

The calendar will now appear on your Smart Page.

Select “**Publish**” from the upper-left corner of the Architect tool bar.
