

Change Formatting Options & Page Defaults

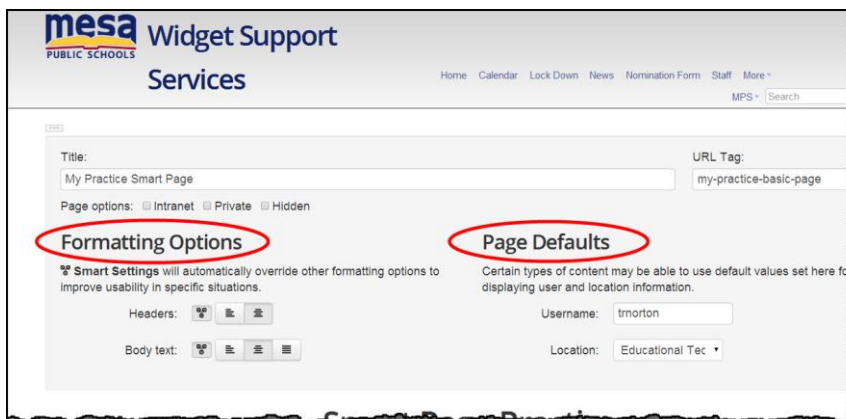

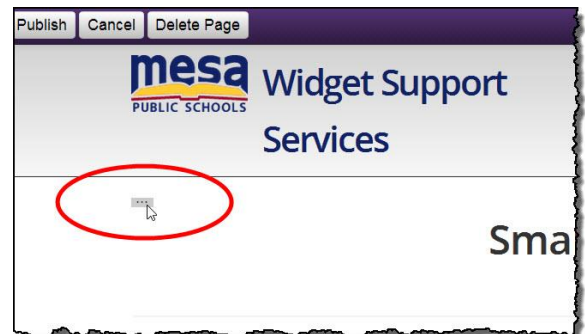

You have the option to change the Formatting Options and Page Defaults on a Smart Page after the page has been created.

Open Chrome, or your web browser, and navigate to your Smart Page in Architeck.

Once you are logged in, click on “**Edit Page**” from the Architeck toolbar at the top of the page.

Select the small ellipsis in the upper-left corner of your page.

Select the new formatting and/or page default options for your Smart Page from the choices listed.

Select “**Publish**” from the Architeck toolbar at the top of the page. Your Smart Page has now been updated with the new options.
