

Parent Survey for the SRO Grant Application 2021-2024

In 2020 Mesa Public Schools will be applying to the State of Arizona for a School Safety Program grant – if awarded, this grant will provide funding for a School Resource Officer (SRO) at our school for 2021 – 2024.

The grant application requires us to include parent, teacher, administrator and staff perceptions about the School Resource Officer program on our campus ... **your response will matter!**

The link below directs you to a survey that requires less than five (5) minutes to complete. The insights and opinions you provide will be used by the grant writer to define the value and importance of the SRO program to the safety of our campus. **All responses are anonymous.**

Thank you for your continuous commitment to the safety and security of our schools.
