Assists with Young Adult Transitional Insurance (YATI) enrollment. YATI is health insurance for former Foster Youth. As of January 1, 2014, regardless of their income, most young adults who were in foster care at age 18 and are under age 26 are entitled to enroll in Arizona's Medicaid program known as AHCCCS. There is no open enrollment deadline. For young adults who were in foster care, access to health care services and preventative care is critical in their successful transition to adulthood. Having insurance means young adults can receive important and consistent health services even after they age-out from foster care on their 18th birthdays.
