

2020-21 Online Classes

The online classes are self-paced and take you through 6 modules. Each module has a “task response” to complete at the end. After all 6 task responses AND course evaluation have been submitted, a 2-hour certificate will be emailed to you. Register for any number of classes that best suites your lifestyle.

1- Online Communication

When you hear about Internet trolls and memes, do you think about imaginary animals? Not sure what the difference is between a wiki, blog, and podcast? Ever wondered about online etiquette? In this course, you will explore the basics of communicating online. Course topics include online etiquette, email, texting, instant messaging, chat, avatars, memes, wikis, blogs and podcasts.

2- Online Information Sources

In this course, you will learn how to find and evaluate online information. You will explore an effective Google Search and figure out if what you read on the Internet is real or fake. The Internet is full of information and knowing how to find good, credible information is a skill for success in school and throughout life.

3- Online Safety

The Internet is a wonderful place when you know how to use it safely. In this course, you will learn how to protect your children, personal information, and computer. You will also find tips on how to avoid cyberbullying and being a victim of cybercrime.

4- Twitter

Twitter is a social media tool that can be used for learning, communication, entertainment, networking, or gathering news and information. Learn what Twitter does, how to setup an account, be involved in your child’s account, and how to use it for personal and/or professional use.

5- Thinking Matters- A Parent’s Guide to Mindset

Over decades of research on achievement and success, psychologist Carol Dweck, discovered mindset- a simple idea that makes all the difference. In this course, you will learn ho to foster a growth mindset in yourself and your children.

6- Social Media- What Do I need to Know About It?

Establishing limits with children and having open conversations about technology is important. In this course, you will explore different types of social media, what to watch for, and how it might benefit you.
